

# SUMMER CAMP ADVENTURES 2026

Our summer programming is packed full of hands-on fun and discovery. Every day, your child will make art, use teamwork and math skills to navigate obstacles, explore inside and outside, sing, dance and discover lots of interesting books. Each week features a new topic that keeps your child's curiosity growing.

Designed by Experience Curriculum, our research-based summer programming is grounded in intentional educational activities that both excite children through playful fun and stretch their minds and confidence. Our program offers unique experiences for ages 3 - 5.

## Join us for an amazing summer of adventure and learning!

# TREASURE ISLAND

Monday

Tuesday

Wednesday

Thursday

Friday

**WEEK 1**

## SETTING SAIL

Your child will **set sail during week one** and explore island life through math, science and creative arts. Each day, they will **learn about islands** and navigation while **building friendship and teamwork skills**.

### Island

Create a spyglass and eye patch to search for "treasure."

### Boat

Assemble a paper boat and play a matching game.

### Captain

Assemble a captain's hat, then take turns navigating in a "boat."

### Wind

Use "treasure coins" to learn spatial concepts, like behind and between.

### Sunshine

Use paint, yarn and cotton balls to create sky and sun art.

**WEEK 2**

## AT THE BEACH

In week two, your child will **explore sand and seashells** while learning about **sun safety** and **practicing conflict resolution** through dramatic play.

### Crab

Create a Crab Shaker instrument and shake to the music.

### Sandcastle

Use a variety of 2D sandy shapes to build a castle.

### Shell

Hide shells in sand, then dig them out and count them.

### Sunglasses

Make your own sunglasses and protect your eyes.

### Sunscreen

Explore sunscreen art and talk about sun safety.

**WEEK 3**

## EXPLORING THE ISLAND

Follow a **secret treasure map into week three** and prepare to explore the island for buried treasure. Your child will watch out for exploding volcanoes and crawl into dark caves to discover colorful jewels. Their **imagination will soar** as they roll coconuts and discover a make-believe waterfall.

### Treasure Map

Draw your own treasure map.

### Volcano

Explore different textures in lava painting.

### Cave

Craft a Cave Headlamp and go exploring.

### Coconut Tree

Create a musical prop, then dance to music.

### Waterfall

Design Falling Water art with various mediums.

**WEEK 4**

## ISLAND FUN

Explore **cultures, celebrations and traditions** in week four through **tropical music**, island dances and beautiful sunsets.

### Luau

Make a flower lei.

### Island Dancing

Dance while blending compound words.

### Surfing

Design your own surfboard.

### Island Music

Participate in a Drum Call using pots, pans, spoons and sticks.

### Sunset

Work as a group to sort sunset-colored items into separate cups.

# CAMPING

Monday

Tuesday

Wednesday

Thursday

Friday

**WEEK 1**

## CAMPSITE CHALLENGE

Your child will kick off week one with campsite challenges! They will **explore outdoor skills**, such as building “shelters,” packing backpacks, practicing lacing a sleeping bag and **singing camp songs**.

### Backpack

Design a backpack and go on a hike.

### Tent

Create campsite art and talk about the supplies needed for camping.

### Sleeping Bag

Lace a sleeping bag card and sing a bedtime song.

### Campfire

Make a shaker, then explore creating different effects while listening to music.

### Guitar

Create a guitar with yarn strings and pretend to play it.

**WEEK 2**

## IN THE NIGHT

During week two, your child will explore what happens at a campsite after dark, **learning about nocturnal animals**, the stars and the moon. They will **explore light and shadows** while building curiosity, teamwork and problem-solving skills.

### Raccoon

Make a raccoon mask and play hide and seek.

### Stars

Assemble constellations in the “night sky.”

### Flashlight

Take turns matching the ends of dominoes, then shine a flashlight along the domino trail.

### Moon

Create moon designs with a variety of textured materials.

### Bear

Take turns rolling a numbers cube, then feeding “bears” that many “berries.”

**WEEK 3**

## HAPPY TRAILS

Your child will **explore outdoor trails** in week three, discovering changes in nature and **learning how to stay safe** along the way.

### Trail

Have fun playing an Alphabet Trail Game together.

### Pinecone

Create a pinecone creature.

### Bike Trail

Work together to find matching Road Sign Cards.

### Hiking Boots

Role-play going on a hike and wearing various outdoor gear.

### Mushroom

Create mushrooms and hunt for them around the room.

**WEEK 4**

## Down the River

During week four, jump in a canoe and ride down a river of books, science and **fresh water fun**. Your child will fish for letters and numbers to catch a bucket of knowledge.

### River

Explore using an eyedropper with watery paint to make river art.

### Canoe

Create and lace a canoe.

### Mosquito

Decorate a postcard with fingerprint mosquitoes or other marks.

### Fishing

Go fishing for letters and numbers.

### Rainbow

Create various color patterns using a sponge as a painting tool.

# SUPERHEROS

Monday

Tuesday

Wednesday

Thursday

Friday

WEEK 1

## SUPERHERO DRESS-UP

During week one, your child will collect superhero tools, help others and design a unique disguise that reflects their strengths. Through imaginative play, they will build confidence, creativity and cooperation.

**Superhero Symbol**  
Decorate a shield with a personal symbol.

**Glasses**  
Wear a disguise, search for links and sort by one feature.

**Cape**  
Design a superhero cape and pretend to fly.

**Mask**  
Create a superhero mask, then wear it while navigating an obstacle course.

**Belt**  
Decorate a superhero belt and investigate fasteners.

WEEK 2

## SUPER POWERS

In week two, your child will learn how to use their super powers for good. They will practice being invisible, then appear when someone needs a friend and offer a helping hand. They will test their strength and gain confidence in their ability to be an everyday hero.

**Invisibility**  
Experiment with a "secret message" and learn how to reveal it.

**Super Speed**  
Practice superhero speed while running a timed relay race.

**Flight**  
Create "flight patterns" with Pattern Cards.

**Super Strength**  
Create a barbell and practice lifting weights.

**Super Breath**  
Experiment blowing over towers with distance and fans.

WEEK 3

## SAVING THE PLANET

During week three, your child will explore ways to care for the planet by learning about reducing, reusing and recycling. Through hands-on activities, like creating art from reused materials, building habitats and helping animals, they will discover how their choices can make a difference.

**Reduce**  
Brainstorm ways for a group to share and decorate one piece of paper.

**Reuse**  
Explore ways to reuse boxes, tubes and bottles.

**Recycle**  
Pick up "trash" sort it into matching boxes.

**Protecting Plants**  
Explore plants by completing leaf puzzles and creating designs.

**Protecting Animals**  
Create animals and explore what they need to live.

WEEK 4

## EVERYDAY SUPERHEROES

During week four, your child will learn about community helpers and how they support others. Through stories, challenges and acts of kindness, they will build compassion and teamwork.

**Firefighter**  
Assemble a firefighter puppet and pretend to put out a fire.

**Police Officer**  
Match letter sounds to create a safety message.

**Peacekeeper**  
Create a peace pledge and wear badges.

**Volunteer**  
Trade pieces to complete food puzzles together.

**Good Neighbor**  
Listen and blend sounds together as good neighbors.
